## EXPERIENCE

### Verizon Business

SR. DESIGNER II May 2022 - Present

- Proven ability to lead projects from concept through execution, translating visionary ideas into practical, market-ready solutions.
- Skilled in blending creativity with strategic thinking to design solutions that address current needs while anticipating future trends.
- Dedicated to aligning creative vision with execution, ensuring seamless product development and delivery from ideation to launch.

### REDIKER SOFTWARE

UX DESIGNER OCTOBER 2019 - April 2022

- Worked closely with product owners, business analysis and a team of developers to deliver detailed specifications and pixel perfect designs.
- Conducted user research through stakeholder interviews, user interviews, card sorting, journey maps and surveys.
- Directed user testing, including test planning, recruitment, moderating, analyzing results and presenting the findings to the stakeholders.

### SALAMANDER DESIGNS

WEB DESIGNER MAY 2018 - OCTOBER 2019

- Managed and maintained two robust product websites. Each consisting of 50+ pages with 100+ products.
- Rebuilt commercial site on a platform that allowed the site to be more responsive; optimized information architecture for more effective navigation.

### FOLEY SERVICES

PROJECT MANAGER → MULTIMEDIA DESIGNER JUNE 2011 - JAN 2018

- Supervised an extremely large and complex rebrand.
- Drove a data analysis project reducing the number of client pricing structures from 40,000+ to under 50. The outcome resulted in a simplified, manageable, and profitable pricing structure.
- Led a data restructuring project and a lengthy data clean-up project successfully resulting in a better user experience and improved data integrity.
- Developed and led a team for an E-Learning system launch including content development, design and publication.
